

HippWrap Shrink Wrap 9 - 12mil Up To 32' Width's

- **Light Weight**..Easy to handle..Easy To Ship..Easy To Install..Saves Money
- **Fire Retardant NFPA 701**..Increase Safety..reduces risk of loss and liability
- **Opaque White Color**..Reflects heat but allows sunlight to enter..workers see better..work better..workers are not disturbed by visual distractions
- **Durability**..Can withstand forces over 2500psi..Holds up under weather conditions known to destroy conventional containments..Less down time and more productivity.
- **Seamless Enclosure**..Less down time..less maintenance..

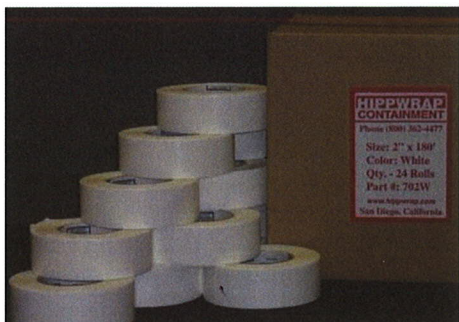

Heavy Duty Strapping

- 3/4" x 1640' Woven Cord Strapping (4 rolls per case)
- Amazing resiliency, flexibility and use
- Break Strength: 1585 lbs.

Fire Retardant Strapping

- 3/4" x 1640' Fire Retardant Woven Cord Strapping (4 rolls per case)
- Meets the requirements of NFPA 701
- Break Strength: 1200 lbs.

HippWrap Shrink Tape 2''x180' (24 per case)

- Shrink Wrap Tape is designed to tape seams, patch holes and secure zipper access doors and many other uses.
- Removes cleanly and easily
- Good tensile strength and excellent tear characteristics
- Applies well in cold or hot weather

HippWrap Shrink Tape 4''x180' (12 per case)

- Shrink Wrap Tape is designed to tape seams, patch holes and secure zipper access doors and many other uses.
- Removes cleanly and easily
- Good tensile strength and excellent tear characteristics
- Applies well in cold or hot weather

Super Duty Spray Glue (12 17 fluid oz. per case)

- Makes installation easier than using just tape
- One of the highest performance aerosol adhesives available
- For permanent or temporary bonds
- Fast & strong
- Waterproof
- Non-staining
- Transparent
- HAPS Free

Leather Safety Gloves

Leather safety gloves are used when heating and bonding shrink wrap

Stealth Vents

- Automatically cuts its own ventilation "hole" during installation
- Automatically secures itself to the flexible cover material
- Automatically seals itself preventing rain/snow entry!

Self Adhesive Stick On Vents

- Simple "Stick-On" Installation. (No special tools required.)
- Guaranteed to stick to plastic, wood, synthetics, metal & painted surfaces.
- Maintains a strong bond in all weather/wind conditions.
- (Normal operating temperatures include -40 deg. F thru 150 deg. F)
- Light-weight, durable, all plastic construction. (U.V. Stabilized)
- Low Ventury styled profile for maximum venting effect.
- Space-age design and technology
- Military approved (NSN: 8115-01-255-3445)

Multi-Purpose Polyethylene Film 1-6Mil 3'-40' Widths

- Multi-Purpose Polyethylene Films are specially produced from a custom blend of raw materials to meet exacting requirements of the building and construction trades. Both lightweight and economical, these products assure ease of handling in quick moving masking operations.

Fire Retardant Multi-Purpose Polyethylene Film

- This film is translucent white in color due to the content of stabilizing flame retardant additives designed specifically for low density polyethylene films.

Multi-Purpose Tapes

- Duct Tape is one of the most versatile tapes ever created. It is a cloth- or scrim-backed pressure-sensitive tape typically coated with polyethylene. It comes with a variety of backing, adhesive and color options to excel in nearly any application imaginable.
- Other tapes include, carton sealing tapes, cloth tapes, double-sided tapes, filament tapes, foam tapes, foil tapes, gaffers tapes, masking tapes, stucco tapes, glass cloth, PTFE film tapes.
- Don't see your tape listed, let us know and we'll go to work for you to find it!

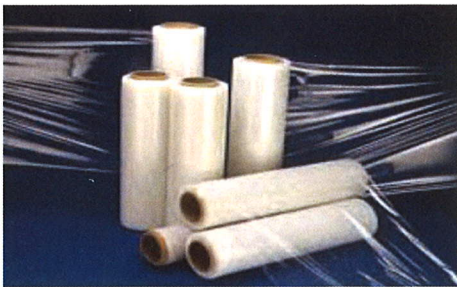

Shrinkfast Heat Gun

- "Dead-man" trigger automatically shuts off the flow of propane and extinguishes the flame when released.
- The Shrinkfast patented combustion cycle allows the flame to burn outside the combustor and keeps the heat tool cool to the touch during operation.
- The UL® approved regulator assembly includes an "Excess Flow Device" that stops the flow of propane in case the hose is cut or develops a significant leak.
- 200,000+ BTUs of power

Intermediate Heat Gun

- Light weight, easy to handle
- Adjustable regulator
- Includes 25' hose
- Includes 4" extension
- Includes 18" extension
- Adjustable heat up to 250,000+ BTU's of power

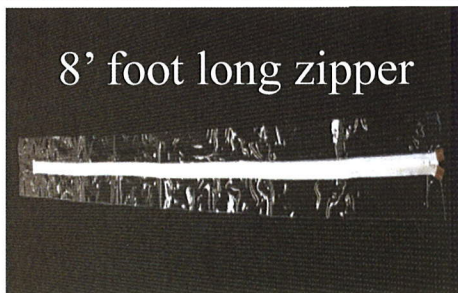

Stretch Wrap

- **Hand Pallet Wrap** micron films are specially formulated with high performance resins. These films offer increased tear resistance, less neck down, quick unwind and superior optics.
- **Machine Wrap** thin Gauge Machine Films are specially formulated with high performance resins. These films offer increased tear resistance, less neck down, quick unwind and superior optics. Designed to provide an unsurpassed cost advantage.

Zipper Door 72" X 54"

- These heavy duty 16 GA clear plastic zipper doors are great for workers access to job sites
- Custom sizes are available larger and smaller

8' Straight Line Zippers

- 8' Straight line zipper, great for making access doors to the size you want when you use two of them together
- Custom sizes are available larger and smaller. We have made these zippers up to 32' long !

Black and White Anti-Chafe Film

- Black and white anti-chafe film is a high performance polyethylene film with a light tack adhesive providing a tough, puncture resistant barrier preventing scratching, chipping or chafing. This film is designed to leave no residue while providing a protected surface between the shrink wrap and the covered object.
